- **Project Management**
- **Web/Software Development**
- **Analytical Abilities**
- **Client Relations**
- **Communications Skills | Interpersonal Skills**
- **Avid Learner**
- **Agile Development | SDLC**
- **Cross-Functional Collaboration**
- **Requirements Analysis**
- **Troubleshooting**

PROFESSIONAL ACCOMPLISHMENTS

- Achieved Black Belts in Java and Python from Coding Dojo, a leading coding boot camp in the US
- Enhanced enterprise web application projects to improved user experience
- Successfully delivered multiple enterprise-level, end-of-life and upgrade projects in the Database/Middleware department on time and within budget
- Drove successful completion of Phase One Transformation Audit Project that improved system analysis and security

EXPERIENCE

Coding Resident

12/2017-Present

CODING DOJO, McLean, VA

- Successfully completed an immersive coding boot camp in enterprise web development
- Over 1000 hours of coding experience and a working proficiency in three full stacks: Spring Boot, Django, and MEAN
- Planned, designed, and developed web apps from scratch, back-end to front-end onto deployment
- Created web apps with RESTful routes, CRUD operations, and API integration

IT Project Manager

11/2016-12/2017

SYNTEL INC., client: MOODY'S CORPORATION, New York, NY

- Managed multiple cross-functional development teams at Moody's that created and maintained over 150 business applications offered to the financial industry
- Managed teams that designed, developed, tested, and implemented software programs and computer equipment
- Delivered technology upgrade projects (i.e. Pentaho and JBOSS) on schedule and within budget
- Created, maintained, and published a weekly report essential to an accurate, high-level assessment of completed automation scripts for senior management
- Demonstrated strong customer service by resolving complex issues and winning customer loyalty

Build Automation Engineer

11/2015-11/2016

SYNTEL INC., client: MOODY'S CORPORATION, New York, NY

- Managed and controlled the build process to deliver continuous integration and related testing; tools included Jenkins, PTC Integrity, Maven, SVN, JIRA, Nexus and Sonar
- Improved security, analysis, and reporting by monitoring critical systems and changes to highly sensitive computer security controls
- Worked effectively with multiple development teams to support source code control, code compilation, deployment, and production release management
- Debugged and analyzed build failures to facilitate error-free Staging and Production Environments
- Fostered excellent client relations with timely resolution of numerous SNOW tickets issues, such as creating and configuring jobs in Jenkins, granting or revoking permissions, creating checkpoints and variants, and artifact uploads to Nexus Repository

Web Developer

11/2014-11/2015

FREELANCE, Astoria, NY

[Jim Jermanok](#)

- Planned, designed, developed and launched a website for the president of a film and television production company using WordPress
- Created a responsive design that enabled customers to access the site via their mobile devices

[Human Communications Institute, LLC](#)

- Revamped Human Communication Institute, LLC website with Dreamweaver, Media Encoder, and Flash
- Successfully deployed site to a new domain

IT Business Analyst

04/2008-11/2014

COMMAND PERFORMANCE PRODUCTIONS, New York, NY

- Provided technical support to identify and resolve issues regarding connectivity, access, configuration, performance, and system upgrades
- Installed, configured, and upgraded system software, security, and applications
- Created a customized, automated contact management system

EDUCATION

Masters of Science in Information Technology, Purdue University, Summa Cum Laude **2013-2015**

Bachelor of Science in Information Technology, Purdue University, Summa Cum Laude **2008-2012**

PROJECTS

Rate Your TV Show - a CRUD web application using Spring Boot, Java, MySQL

Wish List - a CRUD web application using Python and Django

Bicycle Marketplace - a CRUD web application using the MEAN stack
